Modern wizard for indoor use

- Ideal spring machine for indoor use
- Automatic spring feed unit
- Large closed spring drum
- Modern design
- Compact build and light-weight
- For drains from Ø 12 - 100 mm
- For springs from Ø 8, 10 and 13 mm and length up to 15 m
- User-friendly

EasyMatic

The EasyMatic is a modern spring machine that can handle each cleaning job in the house. It cleans kitchen, bath, toilet pipes and stack pipes. Suitable for springs from Ø 8 - 13 mm and for all drains from Ø 12 - 100 mm.

Large closed spring drum

The EasyMatic is unique for its large spring drum. This makes the machine suitable for springs with a diameter up to 13 mm or a length up to 15 m. The drum and the frame are made of aluminium and contribute to the modern design of the EasyMatic. The large spring drum is closed to keep the work area clean. The drum can easily be changed with a quick release system.

Compact build and light-weight

The aluminium construction means the EasyMatic weighs only 14,5 kg (without spring). The low weight and compact build, make it easy to transport.

User-friendly

The new automatic spring feed concept allows the spring to feed in and out of the drain with one movement. Rioned has applied for patent for this unique system. The EasyMatic also has a footswitch so that users can keep both hands free for the real cleaning work.

Durable

The EasyMatic is made out of strong materials and can be completely dismantled to replace parts.

Equipment

The EasyMatic standard equipment:

- electric motor
- unique automatic spring feed unit
- footswitch
- flexible feed hose
- large closed aluminium spring drum
- complete range of accessories for every blockage: cutting knife, blade drill, funnel head, drilling head, diamond-shaped head, retrieving hook and chain head.

Technical details

Motor	0,18 kW electric motor, 230V – 50 Hz
Diameter	12 - 100 mm
Spring	8, 10, 13 mm
Length	7,5 - 15 m
Weight (empty)	about 14,5 kg
Noise	max 72dBA

Footswitch

Automatic spring feed unit
