

NEW

SMD600 Plus-MI2™

MULTI-SENSOR WALK-THROUGH DETECTOR

VERY HIGH PERFORMANCE ENHANCED WALK-THROUGH METAL DETECTOR

- Detection of all-metal weapons, including light alloys threats
- High-Throughput
- Multizone red signaling

CELL PHONES DETECTOR

- Detection of standard and miniaturized cell phones and smartphones
- Detection of magnetized items
- Multizone yellow signaling

APPLICATIONS

- ✓ Correctional facilities
- ✓ Data-sensitive meeting rooms
- ✓ Access restrictions enforcement of weapons, cell phones and smartphones
- ✓ Loss prevention of electronics devices
- ✓ Corporate anti-espionage

The **SMD600 Plus - MI2™** is optimised for the screening of people in applications where simultaneous detection of all metal [magnetic and non-magnetic] firearms and cellphone/smartphone devices, **including the most miniaturized, low metal content** versions, is required along **with high-throughput and a low nuisance alarm rate**.

THE NEW **SMD600 PLUS - MI2™** COMBINES

The well renowned **weapons detection** and **personal metallic objects discrimination** performances of the **CEIA SMD600 Plus**, 288-channel, NIJ0601.02 fully compliant Walk-Through Metal Detector [WTMD].

The **cellphone/smartphone detection** and **discrimination capabilities of the new CEIA MSD EVO™**, state-of-the-art magnetostatic 18-axes detector that provides unparalleled detection uniformity and immunity against interferences.

On its own, the **CEIA SMD600 Plus WTMD** is already a complete and efficient solution for the high-sensitivity detection of any metal weapon and any cellphone/smartphone in applications, such as the correctional facilities, where the inmates to be inspected are metal free or almost metal-free.

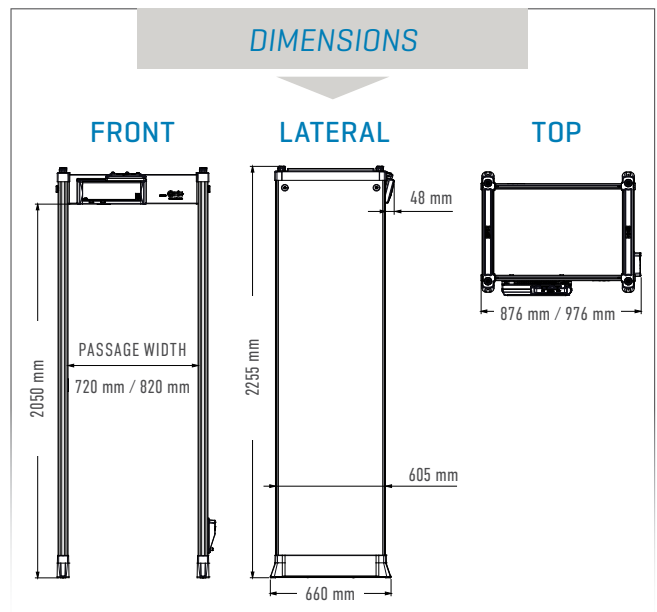

The new **SMD600 Plus - MI2™** allows, in addition, the high-throughput inspection of visitors to correctional facilities or, in general, people in street clothes in a standard checkpoint divestiture situation where detection of assembled/disassembled firearms and standard & miniaturized cellphones/smartphones is required with low nuisance alarm rate.

The new **SMD600 Plus - MI2™** also provides a **specific optical and acoustical signalling for either weapons or cellphones/smartphones**, thus facilitating the secondary inspection performed by the security operators.

SMD600 PLUS - MI2™ HIGHLIGHTS

- **DETECTION TARGET:** all-metal weapons [magnetic and non-magnetic, including light alloys] and all cellphones/smartphones
- **OPERATIONAL USE:** high throughput screening of people in street clothes, under standard checkpoint divestiture procedures
- **APPLICATION FIELDS:** visitors to correctional facilities, access to data-sensitive meeting rooms, access restrictions enforcement of weapons and cell phones, loss prevention of electronic devices, corporate anti-espionage
- Ready to ship now
- Verified and approved by Governmental Bodies
